

# BusinessDedicated

Viacloud BusinessDedicated is ideal for running mission critical service applications and supporting large number of users. As this link is not shared between users, it provides your Business with an internet connection that is reliable, secure and dependable. We can provide connections upto 1Gbps, which is the fastest in Bahrain.

## Key Benefits

- Symmetric (Upload/Download)
- Delivery on Fiber
- High Availability Design
- Secure Connection
- Multiple IP Addresses
- Managed Solution
- Save upto 50% on bills

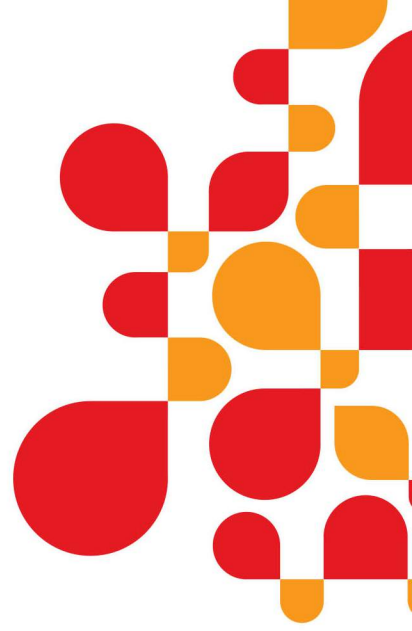

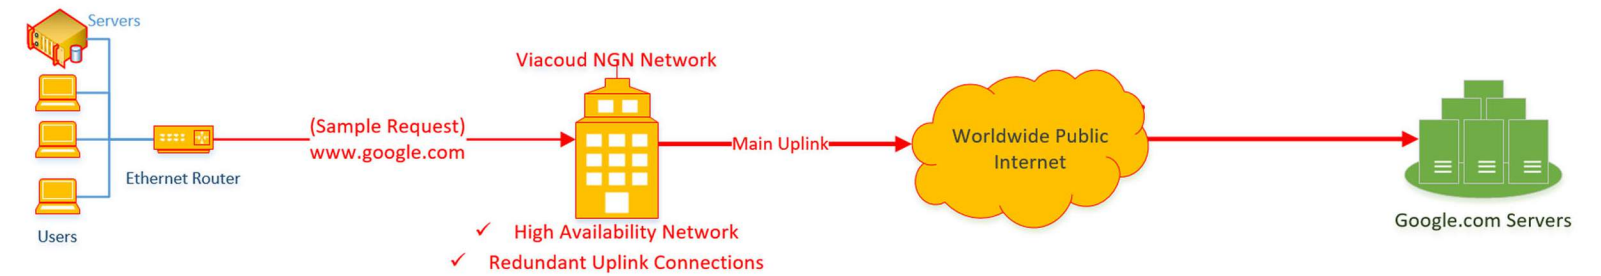

# BusinessDedicated

## How does it work?

Viacloud BusinessDedicated is an Leased Line based internet service. We work with Batelco to deliver a high bandwidth fiber link from our datacenter to your office. Once this link is in place, we then provision the required IP addresses and our VLAN ID to activate your link.

The service is provided as an ethernet based WAN connection and connects to your WAN router. This solution can be provided as a managed service where Viacloud team takes care of unified threat management along with the firewalls, vpns, and quality of service enforcement.

Give your Business  
reliable & consistent internet
